Dr. Joseph Gerson is the Director of the Peace and Economic Security Program for the AFSC in New England. His work focuses on challenging and overcoming U.S. global hegemony: its preparations for and threats to initiate nuclear war, and its military domination of the Asia-Pacific and the Middle East. His previous books include *The Sun Never Sets...Confronting the Network of Foreign U.S. Military Bases* and *With Hiroshima Eyes: Atomic War, Nuclear Extortion, and Moral Imagination*. His most recent book: *Empire and the Bomb: How the United States Uses Nuclear Weapons to Dominate the World* is published by Pluto Press and will be on sale at the event. Just back from the World Conference Against A and H Bombs in Hiroshima and Nagasaki, Dr. Gerson will discuss themes from his new book and the global movement against foreign U.S. military bases.
