

Peace in the Pacific

Stop missile testing!

US plans test missile launch from California to the Marshall Islands on Sept 21

World Peace Day

Join a discussion of the militarization of the Pacific with guest speaker MacGregor Eddy of the Global Network against Weapons and Nuclear Power Space, and Save Jeju Island, Korea.

Route of Sept 21 ICBM test launch

7 pm Sept. 21 , 2011
2426 Oahu Avenue, Honolulu

Vandenberg Air Force Base in California routinely tests hydrogen bomb delivery systems, Intercontinental Ballistic Missiles (ICBMS), over the Pacific to Kwajalein atoll in the Marshall Islands in violation of the US commitment to disarmament under the Nuclear Nonproliferation Treaty.

The US and its allies use the few, short range launches by North Korea as a pretext for military buildup on Guam, Okinawa, and Jeju Island South Korea. Barking Sands on Kauai is key to the tracking of missile launches.

MacGregor is on the International committee to Save Jeju Island (Korea) www.savejejuisland.org for details, and coordinates peace protests and Vandenberg Space Command. www.vandenbergwitness.org
